

Please allow WI to keep their "NO CALL LIST" law as is. I work third shift and nothing is more upsetting than to have your sleep disturbed by call...I am on both the WI and the Federal "NO CALL LIST" and this has eliminated soliciators almost completely... I get a stray here and there, but it is nice to have a silent home...  
The only thing better is if I could charge them for calling me, then they could call me all the time....
